FILMING AT RENTAL DUNGEONS IN ATHENS

There are 2 fully equipped dungeons available for filming before and after the event.

The Underground. Check information and pictures at <https://mistress-alexandra.com/my-dungeon/>

Kingdom of Fantasy. Check information and pictures at <https://www.bdsmdungeon.gr/>

Available dates: from 9th to 11th of May and after 17th of May

We have defined 3 options that should cover most if not all different situations:

- a) Dungeon rental. You pay 250 EUR for up to 5 hours of dungeon rental. You can use all equipment in the dungeon, but filming equipment (lights, cameras, tripods, etc.), camera operator and management of the filming and participants is your responsibility.
- b) Free Dungeon rental with shared clip rights. You don't have to pay anything and we provide the filming equipment, camera operator and management of the filming. You still have to find the slaves for the clip. In this case, Temple of Dommies gets the unlimited rights to publish your clips after 3 months.
- c) Free Dungeon rental when filming with Mistress Alexandra. You don't have to pay anything and we provide the filming equipment, camera operator and management of the filming. We also take care of the slaves for the clip. In this case, Temple of Dommies gets the unlimited rights to publish the clips and publishing schedule will be arranged.

FILMING AT OMEGA COMPOUND

Omega Compound. Check information and pictures at <https://www.omegacompound.com/>

While Omega Compound can still be rented before and after the event for private filming, during the Femdom Gala event the filming will follow a different set of conditions.

- a) Filming in large groups either outdoors or at the different rooms with slaves attending the event and who want to participate. The rights for those clips will be shared among all participants. There will be a draw to define the publishing schedule for each of the clips.
- b) Filming in small groups in one of the 5 rooms available. For this scenario, the rental rules detailed before for Rental Dungeons in Athens apply. That way you can choose which of the 3 options (a, b or c) is more convenient for you.

CLIP DELIVERY

- a) Clips will be made available for everyone in unedited raw format before departure from Athens.
- b) Make sure you bring enough hard drives to take your clips with you.
- c) Clips will be organized in files with publishing date to avoid misunderstandings.
- d) Eventually, clips will be made available online for you to download in raw unedited format but due to the slow internet upload speed in Athens, there is no guarantee about the dates.

CLIP PUBLISHING SCHEDULE

- a) A publishing schedule document or website will be available for all to check.
- b) The dates when each participant will be allowed to publish content filmed in private groups will be arranged in private among parties or, in case of group filming there will be a draw to keep fairness to the maximum.

Preliminary draw rules

- i. All participating Ladies will get the publishing rights of each of the clips in which they are featured, but there will be a publishing schedule in place to avoid overlapping.
- ii. Each group will film as many clips as there are participants. For example, if there is a group of 5 Ladies, 5 clips will be filmed, of course there can be smaller or larger groups. Total clips filmed must be a multiple of the participating Ladies, so everyone gets the same exclusive clips.
- iii. Once the recording is finished, each clip will be identified with a number and placed in a bowl. Alternatively, each of the ladies will draw a number and that will be their exclusive clip.
- iv. Each Lady will have the exclusive right to publish the clip she won in the drawing wherever she wants for 1 month after the recording. After that time, all the other ladies participating in that clip will have the right to publish the clip.

DOCUMENTATION

- a) Model releases will be signed before filming.
- b) Bring your current Passport or ID Card
- c) We will provide a generic Model release that will be signed once as there will be no time for multiples. If someone wants to use their own model release each will have to arrange the signing process with the people involved at a different time. We are doing this to optimize filming time and content creation.
